1. The following is an examiner's statement of reasons for allowance: the closest prior art, namely Kamikawa et al, teach away from the present invention. The prior art teaches divided processing chambers that are vertically oriented. However, the prior art does not teach the method of applying a liquid treatment in the upper section of a chamber, nor was the apparatus of the prior art capable of applying a liquid treatment in the upper section of a chamber because there are no means for draining a treatment liquid. Therefore, the present claims are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
